CAREER OBJECTIVE

MERN Stack Developer experienced in building responsive, maintainable full-stack applications with **React, TypeScript, Node.js, Express.js, and MongoDB**. Seeking a **Junior MERN Stack Developer** role to contribute clean code, reliable REST APIs, and practical problem-solving while building secure, production-ready applications.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React, Next.js, React Router, HTML5, CSS3, Tailwind CSS, Vite

Backend & Database: Node.js, Express.js, REST APIs, MongoDB, Mongoose

Data, Forms & Auth: TanStack Query, Axios, React Hook Form, Zod, Better Auth, JWT, Role-Based Access Control

Tools & Platforms: Git, GitHub, Postman, Cloudinary, Stripe, Vercel, Render, MongoDB Atlas

INTERPERSONAL SKILLS

Communication, teamwork, problem-solving, adaptability, time management, and attention to detail

PROFESSIONAL EXPERIENCE

Red Technologies Ltd. - L1 Engineer, Operations | Oct 2023 - Feb 2024

- Monitored operational systems, responded to service alerts, and performed first-level incident troubleshooting.
- Documented incidents and status updates, escalating complex issues to the appropriate teams within established timelines.
- Coordinated with team members to support service continuity and complete assigned monitoring tasks on time.

PROJECTS

GrantPilot AI - AI Grant Application Platform | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

- Built a secure applicant dashboard tracking 3 application states: active, submitted, and closed.
- Implemented AI-powered grant recommendations and an assistant for opportunity discovery and guidance.
- Resolved cross-origin authentication by configuring secure cookies, CORS, trusted origins, redirects, and session refresh.

Tech: React, TypeScript, Tailwind CSS, TanStack Query, Node.js, Express.js, MongoDB, Better Auth

ReSell Hub - Secondhand Product Marketplace | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

- Implemented product discovery across 7 search, filter, sorting, and pagination criteria.
- Secured user-specific product CRUD operations with JWT authentication and protected routes.
- Integrated Cloudinary image uploads and responsive listing/detail views for desktop and mobile.

Tech: Next.js, JavaScript, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Cloudinary

CrowdSpark - Crowdfunding Support Platform | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

- Developed campaign workflows with funding goals, minimum contributions, progress tracking, and creator controls.
- Integrated Stripe payments with verified webhook handling and synchronized contribution and campaign records.
- Built role-based dashboards for campaign, contribution, creator, and notification workflows.

Tech: React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Better Auth, Stripe
